

~ Malo le soifua maua ma le lagi e mama ~

~ Warm greetings family ~

How is it April already?!?! Hoping you've all had a great summer despite the weirdness of the world we live in right now! If you're ever free and are around our neighbourhood, please do let us know and pop in for a cuppa. We so value your friendship as we partner together to proclaim the gospel here in our nations Capital!!!!

We had a great summer chillin in Wellington, well, maybe 'melting' is a more apt description! Our kids learnt to ride bikes courtesy of gran and grandad, they got bunk beds and Daniel and I enjoyed a few days away together courtesy of Dan's mum and sister BUT here we are now....5 weeks into the campus year >>>

Our Staff Team

We kicked off 2022 with our annual national staff conference in January. Though we had to attend the conference regionally via zoom it was still a great time to be together digitally bonding nationwide, experience some great teaching/training and being reminded of the mission laid before us. It was also such a highlight to officially welcome new members AJ and Bethany onto the Wellington Team, as well as be a fun week for the kids!

REM

A girl from Burma

One of our new student leaders from Burma has learnt that wants "to be more confident in sharing with others, and the more we went out sharing our faith, the more confident I became. Hearing the different answers from people we talked to and also hearing testimonies from our fellow students were all very encouraging and I realized there are many people who have yet to hear about God, and that sharing the Gospel with others isn't as scary as I thought."

Sebastians Heart

SEB

It's extremely important that people know who Jesus is and for me, [it is] all about learning how to bring others closer to Christ the way I have, because it's life changing and the way we're supposed to be. We were made to have a relationship with our God, and the only way is through Jesus.

EXPLORING STUDENTS

13!

We have 13 students this term who have expressed desire to explore who Jesus is. Please pray for Arthur, Felix Max, Judah, Mario, Zane, Maggie, Jenny, Roshan, Hannah, Abby, Alexander & Cat, that they would come to a saving relationship with Jesus this term.

We Love Our Student Leaders

9 student committed leaders stemmed out of what was a hard year for students in general last year. We had 3 in 2022 with many interactions via zoom, google hangout, discord...you name it, if it was digital, we tried it AND YET, God still raised up more student leaders for the following year. The years of Covid has taught me and my team that ' a limitation for us can be a great sign for a presentation of God'. God presents His power and we have enjoyed his showcase.

Praise the Lord & Pray for Paddy, Andy, Micah, Jeanice, Naomi, Rem, Jessie,

Beatrice as they begin to lead their action groups this week. Pray that God would transform their communities into students who love Christ, love on the campus (pray over and share the Gospel on campus) and call others to do the same.

WE ARE SO PROUD of how our student leaders have kept allowing themselves to be discipled and to reach students where they are at. ISO has kept some of our students away from campus and yet zoom has served us well to keep encouraging each other as long as it has been called Today 😊🙌

Pray With Us

Trying to use every bit of landmark to remind us how God-sized the mission is to reach the lost and therefore more reason for us to pray. Pray for our student leaders that they would make Jesus disciples this year on campus and beyond 🙌🙏🙌🙏

Prayer

Continued stamina to lead our team with changing Covid rules/regulations
That God would soften people's hearts around this precious Easter time
For a great 'staycation' in a few weeks time just Daniel and myself

Praise

Our new team members have brought a lot of life to our team and are doing well.
Our 13 explores
Our kids are doing really well at school and love it there!
